Amendment
Atty. Dkt. No. 073169-0278153 / ATH-030

input current load circuit, plurality of gain cells, and plurality of switching circuits required by claim 24 of the present invention. Neither do combinations of Jett, Vagher Ynn and Tanji anticipate or suggest the subject matter of the dependent claims 25-33. Accordingly, Applicant respectfully submits that claims 24-33 are allowable over the art of record.

New Claims

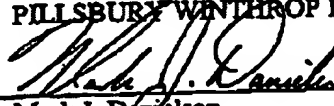

By this amendment, claims 34 and 35 have been added. Claims 34 and 35 depend from and further limit independent claim 24 in a patentable sense and, thus, are in condition for allowance. Accordingly, Applicant requests allowance of claims 34 and 35.

Conclusion

All objections and rejections having been addressed, it is respectfully submitted that the present application is in a condition of allowance and a Notice to that effect is earnestly solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
